**F. Service Limitations.** All services provided under CLIN 0052 are for unclassified use only. No international services are provided under this CLIN. No Preemptive Calling Service is provided. "900" calls will be blocked.

#### **G. Device Hardware.**

(1.) Mobile voice handsets that do not connect to the NMCI network do not require approval by the DAA; however, to ensure compliance with other Government policies and regulations, the Contractor will obtain the Contracting Officer's approval of mobile phone device hardware prior to posting descriptions on the website. Limited accessories will be made available on the CLIN 0023 Catalog. The Contractor is not required to refresh device hardware. Unless otherwise agreed, services offered under this CLIN do not include PKI/CAC or other similar cryptographic support.

(2.) Once received, device hardware becomes the responsibility of the Government. Warranty coverage shall be as described in the carrier's service description. Initial remedy for cellular phone problems is via the carrier's Help Desk.

(3.) To obtain a replacement device for one no longer covered by the initial warranty or for circumstances not covered by the current warranty, the Government shall order the appropriate CLIN for Activation Service Plus Handset and CLIN 0052EA for Device Hardware Replacement Service. This service offsets the cost of the replacement device. To expedite replacement, the Government may pre-order a limited number of CLIN 0052EA for device replacement service along with the appropriate CLIN for Activation Service Plus Handset. Pre-ordered replacements must be used within the Fiscal Year ordered and it is incumbent upon the ordering activity to monitor pre-ordered replacements and initiate deobligation order modifications, if necessary.

**H. Mobile Voice Changes within the NMCI Contract.**

(1.) FY05 orders for CLIN 0012 service may remain in effect or be renewed. To switch to CLIN 0052 service, order the appropriate CLINs for Activation Service Plus Handset, 500 Minutes Mobile Voice Service, Estimated Surcharges and Overage Service. Upon cancellation of the CLIN 0012 service the ordering activity will return the old handset to the Contractor.

(2.) To change handsets within the same CLIN 0052 carrier, order the appropriate Activation Service Plus Handset CLIN.

(3.) To change carriers within CLIN 0052, modify the order to cancel existing service. Order the appropriate CLINs for Activation Service Plus Handset, 500 Minutes Mobile Voice Service, Estimated Surcharges and Overage Service. Canceling Cingular service may be subject to a termination fee under CLIN 0052BG.

**I. Users with a Government-furnished cellular phone from Nextel, Cingular, Sprint or Verizon.** A user with a Government-furnished cellular phone activated on the Nextel, Cingular, Sprint or Verizon network may switch to CLIN 0052 mobile voice services by ordering CLIN 0052EB Mobile Voice Account Switching Service and the appropriate CLINs for 500 Minutes Mobile Voice Service, Estimated Surcharges and Overage Service. The Government shall be responsible for termination charges, if any, under its existing plan. The Contractor shall deliver CLIN 0052 service via the Government-furnished cellular phone.

**J. Orders.** It is incumbent upon the ordering activity to order services that are available in the users' area and that best meet their needs. All service plans should be carefully examined and considered before placing an order. The Contractor's website will provide NMCI Mobile Voice instructions to explain to the individual user the service provided, device usage, carrier help desk support, and other support functions. When commercially available and upon initial ordering of a device, the carrier will assist in transitioning a user's existing cellular phone number to the new device.

**K. Monthly Reporting.** The Contractor and the Government will work together to provide the Government with read-only access to the data reporting system to allow the Government to create ad hoc reports for oversight and management.

**L. Periodic Reviews of Mobile Voice Service Offering.** The Government and the Contractor will annually review actual CLIN 0052 volumes, descriptions and prices and may mutually agree to make adjustments to take advantage of current commercially-available offerings.

**M. Pooling of Minutes.** Each Mobile Voice Service CLIN provides a user with 500 minutes per month for that carrier. These minutes will be pooled by carrier on a monthly basis at the DoN level. Minutes will not roll over month-to-month. If net usage exceeds the monthly pooled minutes for a carrier, the Contractor and Government will work together to allocate the overages to the appropriate ordering activities. Net overage charges will be allocated to each task order that had any devices that used more

than 500 minutes. This allocation will be proportionate based on the ratio of task order overage to the net DoN overage. If there is no net DoN overage there will be no overage charges to be allocated. The Government will place additional order(s) for excess usage using the appropriate Overage Service CLIN as required.

**N. Mobile-to-Mobile Calls.** Mobile-to-Mobile calling refers to calls between mobile phones on a carrier's network. Users are cautioned that these calls may be charged against the 500 monthly minutes. Users are advised to refer to the plan descriptions and limitations stated for the carrier's plan.

**O. Help Desk.** Mobile voice phone users will contact the carrier's help desk if support is required.

**P. Service Areas.** Service area coverage varies by carrier. Users are advised to refer to each carrier's plan description for coverage area details.

**Q. Delivery Targets.** The Contractor and Government will work together and strive to implement processes that enable progress towards the following delivery targets:

New orders: Device received within 14 calendar days of order receipt.

Replacement Devices: Device received within 72 hours of order receipt.

3. Items 0052AA-AC, 0052BA-BC, 0052CA-CC and 0052DA-DC. These services have non-level unit prices under a waiver of FAR 17.106-3(g). For the purposes of Section 1.2.2 entitled "Equipment", if the Government chooses to purchase the equipment dedicated to the Service provided for these Items, the equipment shall have a price of zero dollars (\$0.00) as of the date the Contractor receives payment of the CLIN price for the item.

4. A conformed copy of the revised contract is made a part of this modification as a result of the changes identified herein.

5. All other terms and conditions of Contract N00024-00-D-6000 remain unchanged, and in full force and effect.
